NAVER UNIVERSE

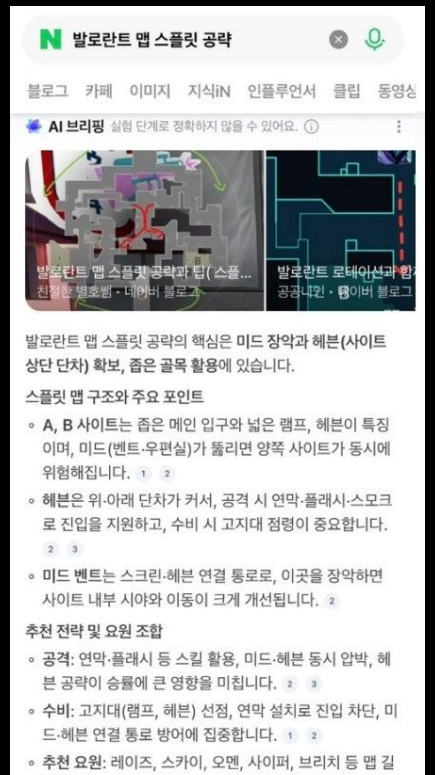

Korean gamers begin and complete their journey on NAVER

Korean gamers complete the full journey on NAVER—from discovery and community engagement to immersion and payment.To succeed in the Korean market, securing user touchpoints on NAVER is essential.

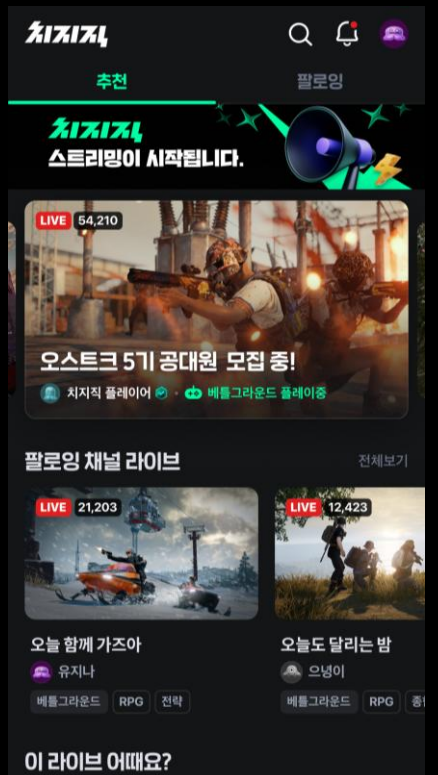

Mobile Game Rankings

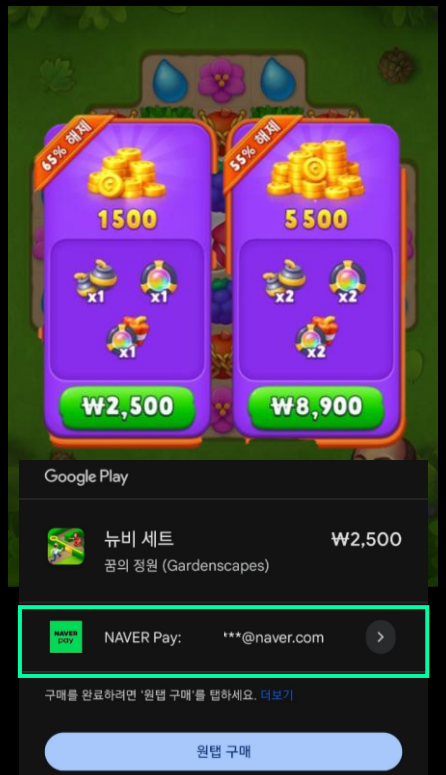

Interest & Discovery | Game Info & Reviews | Community Engagement | Content Consumption | Gameplay & Purchase

Understanding the game user journey guides the right ad strategy

Korean gamers choose a game through multiple stages—discovery, exploration, engagement, and playing.

Interest

Initial awareness of the game

Exploration

Searching reviews, guides, character info

Engagement

Watching gameplay videos, joining communities

Loyalty & Conversion

In-app play & purchase

Design Ad Touchpoints Across the Entire User Journey

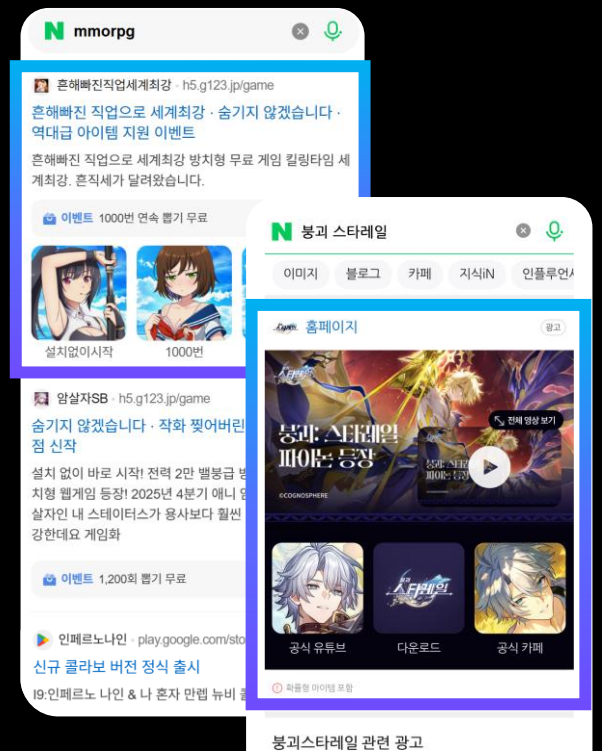

To prevent drop-off at each decision stage, you need tightly designed ad touchpoints across the full journey.

Game User Journey & Ad Touchpoints

Interest
Building Content-Based Touchpoints

Capturing Search Intent

Engagement
Driving Conversion with Repeated Exposure

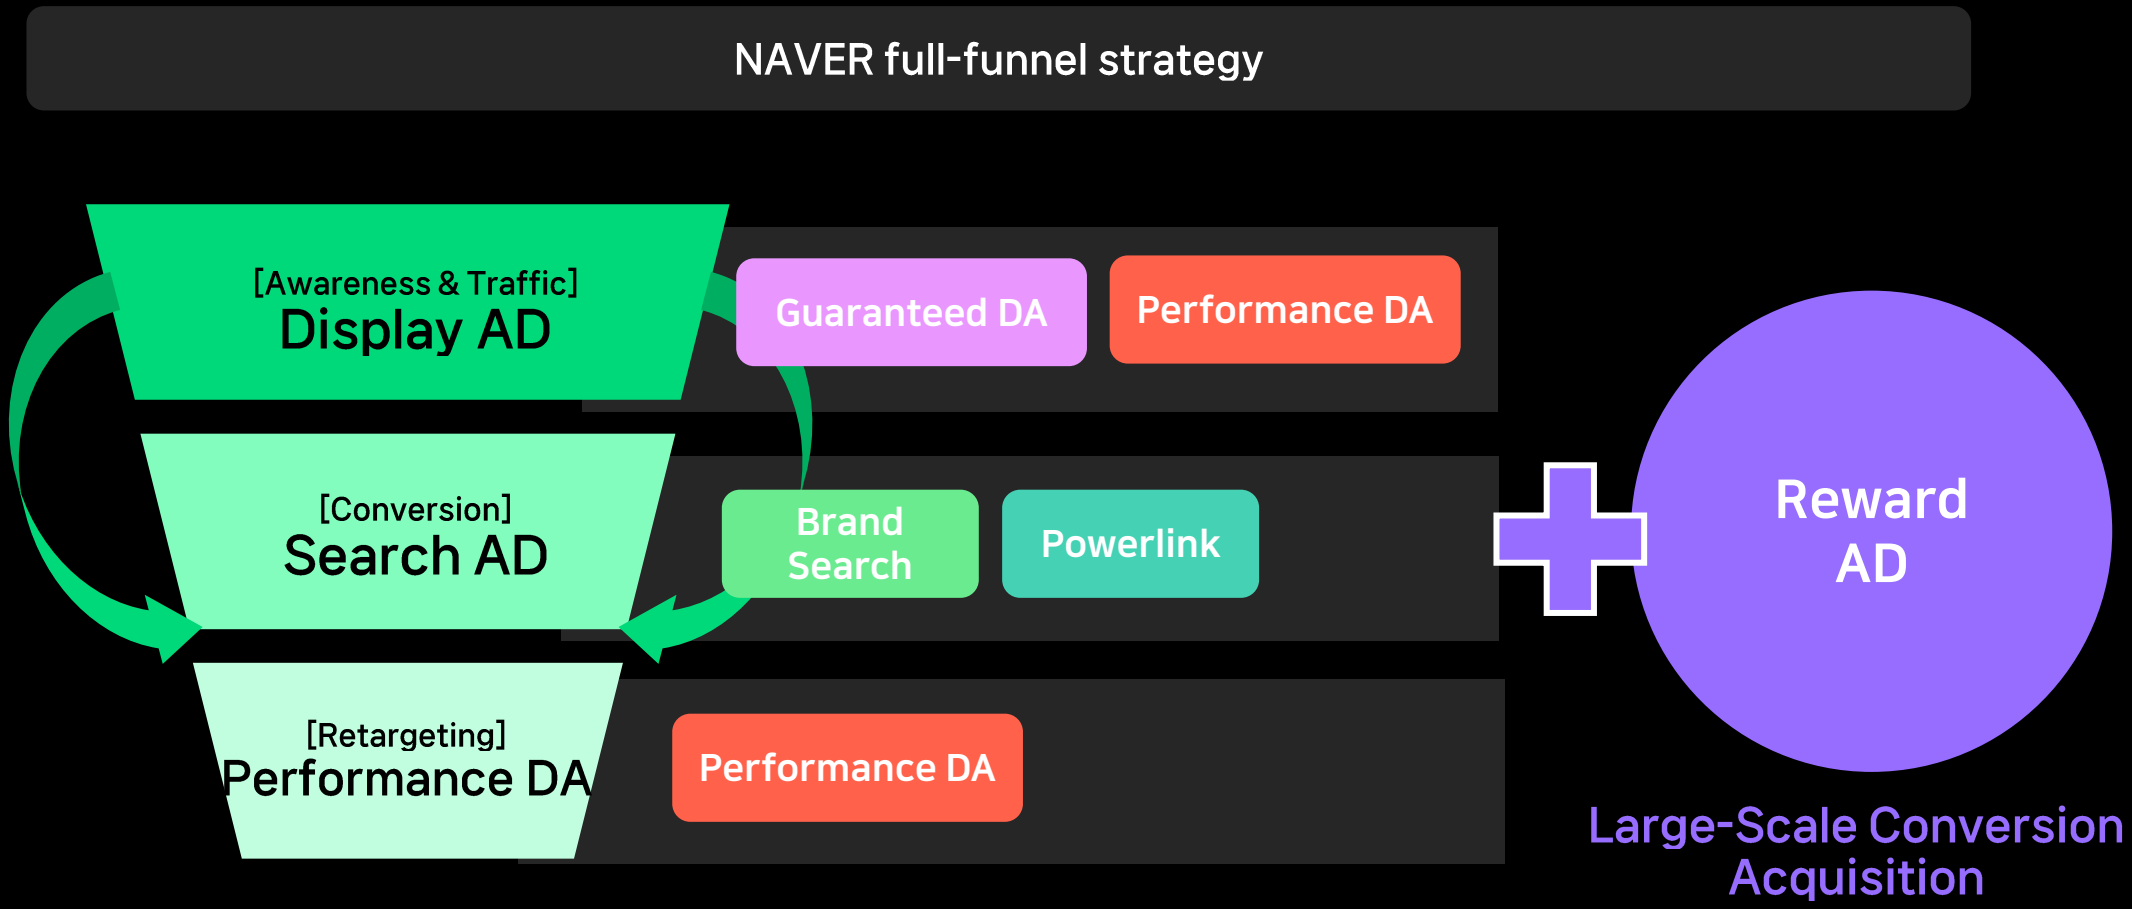

Loyalty & Conversion
Expanding the Target Pool

NAVER ads should be planned and operated from a full-funnel perspective

Because DA and SA on NAVER are closely connected and influence each other, campaigns should not be viewed as isolated products.Instead, performance must be evaluated and optimized based on how NAVER's full platform funnel works together.

E.O.D.
THANK YOU!
