Expanding the Target Pool

NAVER ads should be planned and operated from a full-funnel perspective

Because DA and SA on NAVER are closely connected and influence each other, campaigns should not be viewed as isolated products.Instead, performance must be evaluated and optimized based on how NAVER's full platform funnel works together.

NAVER Media Mix Strategy for Game Advertisers

When DA campaigns increase brand-aware users, this leads to higher search query volume and improved ad CTR, ultimately driving greater scale and efficiency in Search Ads. After meeting your overall CPI goals through SA and Reward Ads, reinvest the incremental budget back into DA—this is NAVER's unique performance-driven strategy framework.

NAVER Media Mix Example (Budget: ₩30M)

Ad Type	Ad Product	Cost	Install	Avg.CPI
Display AD	GFA Performance DA	₩5,000,000	166	₩30,000
Reward AD	NAVER Webtoon - Cookie Oven	₩15,000,000	50,000	₩300
Search AD	Brand Search	₩5,000,000	1,667	₩3,000
	Powerlink	₩5,000,000	1,667	₩3,000
	SA Total	₩10,000,000	3,333	₩3,000
NAVER Total		₩30,000,000	56,833	₩559

	Core Keyword Group 1	A	B	C
	Core Keyword Group 2	D	E	F
	Core Keyword Group 3	G	H	I
	...	...		

Case. **Limited SKUs (Single-Category Stores)**

Match a top-performing product creative (A)
to multiple core keywords by **keyword-based grouping**

Campaign	Ad Group	Product/Creative		
MO /PC	Brand	A	D	G
	Core Keyword Group 1	A	B	C
	Core Keyword Group 2	A	E	F
	Core Keyword Group 3	A	H	I
	...	...		

Shopping Search | Store Product

Shopping Search Ads: Display Your Products in Search Keyword Results

Shopping Search Ad creatives are primarily generated using the information registered in the EP.
There are four key elements that most strongly impact CTR. To improve performance, these elements can be customized at the creative level.

✅ Basic Elements

- ① Product Image : Use visually appealing images
- ② Product Title : Include core keywords in the product title
- ③ Price : Set competitive pricing
- ④ NAVER Pay Points : Perceived as an additional price benefit
- ⑤ Promotional Text : Highlight promotions and additional discounts

✅ Additional Information

- ⑥ Reviews / Purchases / Favorites Count : Displayed based on review and purchase volume
- ⑦ Official Store Badge : Build credibility with official store verification
- ⑧ Seller : Set accurately for brand keyword matching
- ⑨ Shipping Information : Increase customer trust by leveraging shipping options

Shopping Search | Store Product

Shopping Search Ads: Best Creative

To achieve higher CTR, keep the following Best Creative principles in mind for Shopping Search Ads.

1) Use eye-catching images and optimized product titles compared to competitors.

2) Be sure to leverage additional promotional text and Shopping product attributes to clearly highlight your store's differentiation points.

Worst

- Images that fail to clearly communicate the product's USP
- No emphasis on additional value beyond the product itself

Best

① Images that clearly communicate the product's USP (e.g., thickness, firmness, ergonomic comfort)

② Highlight differentiation points with additional promotional text

③ Display Shopping product attributes for added credibility (e.g., rating, number of reviews, number of favorites)

Display Ad #1

Type	Search Ads	Display Ads

Conversion | Interest/Intent

Purchase Intent / Interest Target

Ideal for starting general conversion campaigns aimed at expanding new target audiences.

Select the Best-Fit Purchase Intent / Interest Based on Your Customer Data

Use NAVER Search Ads → Tools → Keyword Tool to review insights after entering your brand name.

Our Brand's Core Products
Women's apparel > Dresses

Our Brand Customer Data
Women ratio: over 55%
Ages 30-49: over 55%
Mobile ratio: over 70%

1 Select detailed categories / interests related to your brand
ex. Fashion > Apparel > Women's Apparel (3depth)

2 Select categories / interests that our brand's key customers (40s / Female / Mobile) are likely to be interested in
ex. Life Events > Birth & Childcare, Shopping Malls, Beauty & Skincare

3 For additional expansion, test customer interests / purchase intent segments
ex. Women-oriented interests – Home & living, Household management

NAVER Shopping Registration Guide CLICK

Build Scalable Brand Growth with NAVER Shopping

By joining NAVER Shopping, advertisers gain access to exclusive ad placements, advanced targeting options, and promotional programs designed to accelerate growth. Depending on your business model, choose one of the three onboarding options below to complete your NAVER Shopping integration.

[NAVER Shopping Onboarding Options]

Type 1. Advertisers with Their Own Shopping Mall (Out-link)

CPC (Cost per Click)

Charged per product click

Deduct cost from the balance
* No need to track transaction

CPS (Cost per Sale)

Monthly fixed fee + commission per sale

n% charged for every transaction
All Sales must be checked for settlement(monthly)

Type 2. Advertisers Without a Shopping Mall (In-link)

Smart Store

Commission is charged per product sale

Products are registered directly within NAVER Shopping,
Fees are automatically applied based on store and product type

NAVER Onboarding Guide
