# FAQ

@ NAVER Corp

# 4. FAQ

**Q. [Contract/PO] I would like to return electronically signed contracts and PO.**

You can click the Electronic Seal Button in the Contract/PO and click the Reject button at the top left.

**Q. [Contract/PO] How do I approve the contract and PO?**

You can click the Electronic Seal Button and import the seal (signature) image to seal and conclude.
The seal image is not automatically imported from the system. The signer must retrieve an image stored on its PC.

**Q. [Contract/PO] I would like to use Electronic Seal, but the “Click Here” button is not displayed.**

If you are not the designated signer, the button is not activated.
Please contact to the NAVER/LINE business manager and ask who is assigned to the signer.

**Q. [Settlement] I am trying to issue a tax invoice, but the joint certificate can’t be found.**

It can be issued only with a joint certificate for general purpose and electronic tax invoice. Financial (bank/insurance, etc.) certificates are not supported.

**Q. [Settlement] When issuing a tax invoice, the certification installer is looped indefinitely, so it cannot proceed.**

Please go to www.crosscert.com and refer to how to install the program. (Access > Support > FAQ > See the #2,3 posts)

**Q. [Others] The Change Business Information menu is not displayed.**

Please view if you are logged in with an administrator ID. The business information can be modified only with the administrator ID.

**Q. [Others] When I log in, the connection is lost, and an error keeps popping up.**

NAVER Partner System is most optimized for Chrome and Whale browsers. Internet Explorer may cause frequent errors, so please change your browser.
If the error keeps occurring even in Chrome or Whale browsers, please clear your cache.

※ You can see other FAQs in the FAQ menu on the bottom right in Partner System.
